COTTON COMFORT & EVERYDAY BENEFITS

Natural cotton feel — Cotton is a plant-based natural fibre known for its soft, familiar feel against the skin.

Breathable comfort — Cotton fibres allow air to move through the fabric, helping make the T-shirt comfortable for regular daily wear.

180 GSM fabric weight — A medium-weight fabric that offers more substance than very lightweight T-shirt fabrics while remaining suitable for everyday use.

Bio-washed finish — Bio-washing uses enzymes during fabric processing to help remove surface fuzz and give the fabric a cleaner, smoother hand feel.

Easy to style — A simple crew-neck silhouette works with jeans, shorts, joggers and layered outfits.

Great for customisation — The clean basic design is suitable for brand merchandise, teamwear, events and custom print applications. Always test the chosen print process on the actual fabric before bulk production.

CARE GUIDE

• Wash inside out with similar colours using a mild detergent.

• Use cold or normal-temperature water; avoid harsh bleach.

• Dry in shade where possible to help preserve colour.

• Iron inside out on a suitable cotton setting; avoid ironing directly over prints or labels.

• Follow the garment care label and test care methods before bulk customer instructions.

Note: Actual colour may vary slightly due to lighting and screen settings. Fabric performance and care results can vary with dyeing, finishing, printing and washing conditions.

WHITE

A crisp wardrobe essential that pairs effortlessly with denim, joggers and layered looks.
